

Quality Standards for Frontlit Outdoor Product

Physical Characteristics:

Properties	Warp (Min. Value)	Weft (Min. Value)	Comments
Tensile Breaking Strength	151 lbs/in 266 N/cm	79 lbs/in 139 N/cm	ASTM D-5035
Tear Strength (pre-cut)	147 lbs 659 N	100 lbs 448 N	
Tear continuing (avg)	109 lbs 488 N	79 lbs 354 N	
Seam Breaking Strength	105 lbs/ins	185 N/cm	
Light Transmission	19%		

Other attributes:

1. Product durability - designed to withstand minimum wind velocities up to 100 kph.
2. Product Longevity - designed to remain fit for purpose for up to 5 years.
3. Product is fade resistant up to 5 years.
4. Product resists cracking, chipping and peeling for 5 years.
5. Product available in Fire Resistant versions that comply with AS 1530 parts 2 & 3.
6. Product is backed up by information database available for up to up to 5 years.
7. Product is backed by a comprehensive warranty.
